HSC

SENGUNTHAR HR.SEC SCHOOL, ERODE
2018 – 2020   **72.5 %**

Skills

CCNA

Linux

Web Development

PostgreSQL

Python

Certifications

- Introduction To Cybersecurity
- Cybersecurity Essentials
- Intro to Kali Linux

Experience

Network Engineer Intern-Trainee   *feb - july 2024*

Pallavaa Groups , Erode

- As a Network Engineer, I configured routers, switches, and firewalls, monitored network traffic, troubleshot connectivity issues, and maintained network security. I collaborated with cross-functional teams to upgrade network systems, ensuring minimal downtime and efficient data flow.

Projects

Upload Hub

- This project is a robust file-storing platform designed for users to securely upload, download, and manage their files. It is built with HTML, CSS, JavaScript, PHP, and MySQL.

Vehicle Maintenance Tracker

- This project is designed and developed as a personalised website to track vehicle maintenance and fuel expenses, optimising record-keeping and cost analysis for future reference.

Highlights Makeover Artistry

- Created a PHP and SQL-based appointment system with an admin panel, scheduling features, and TCPDF for efficient data handling and report generation.

Jayalakshmi Borewell Services

- The project involved creating a comprehensive digital solution for Jayalakshmi Borewell Services, focusing on record management and business showcase, with a particular emphasis on the admin panel console.
